

Using Zoiper

You will need internet connection to all the following steps.

Peoplefone account

1. Go to www.peoplefone.lt
2. Touch «**Register**» to create new account.

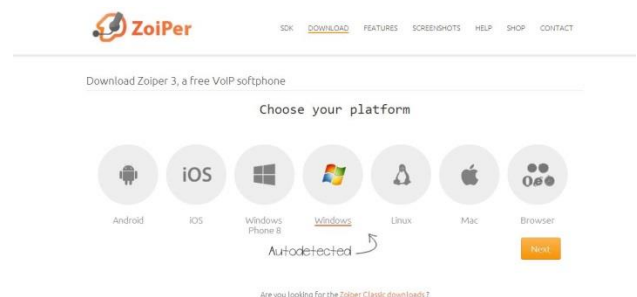

Registration form with fields for Login E-Mail, Password, and a forgot? link. A Register button is on the left and a Login button is on the right.

3. You will have to make first payment.
4. Choose «**Profile**» - «**Device Data**», where you will find your SIP username and SIP password.

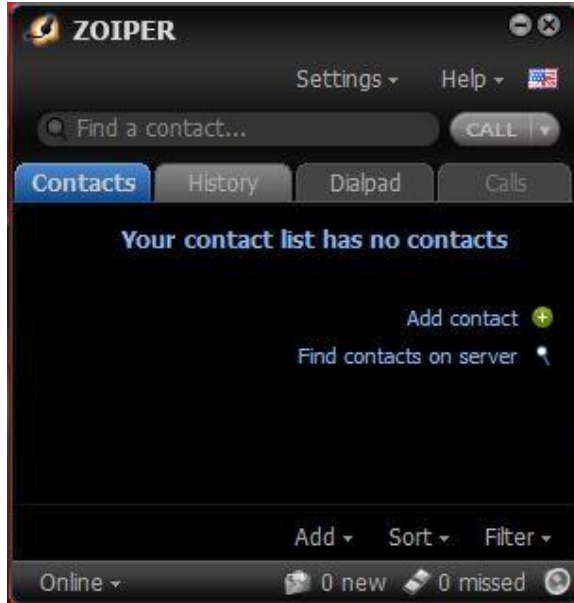

5. Go to page <http://www.zoiper.com/en/voip-softphone/download/zoiper3> and download **Zoiper** to your computer.

Configuration

1. Open **Zoiper**, which is now on your desktop.

2. Click «**Settings**».
3. Go to «**Preferences**» .

4. Click «**Create account**». There will be chosen **Account type SIP**, then click «**Next**».

5. In **Credentials** table you have to enter your **User**, **Password** bei **Domain**. They can be found in your *Peoplefone* profile: <https://me.peoplefone.lt/users/accounts>.

- **User** – SIP username
- **Password** – SIP password
- **Domain - Proxy**

6. You will be recognized, so click «**Next**».
7. If you want to call, click «**Dialpad**».

kalbék daugiau, mokék mažiau.

What else can happen?

«Login failed»

Go to your profile again and check, if SIP name and password are correct.

«Error»

There might have Firewall, so go to other computer ant try to connect here.

Bad connection

The internet might be a little slow, try to connect somewhere else.
